ONE STOP GOVERNMENT PORTAL

INDEX

- Why we choose this project ?
- Disadvantage of existing application
- Advantage of our application
- Modules of the application
- How our application works ?
- Technologies
- Diagrams
- Conclusion

INTRODUCTION

- This is one stop personalized and secure government portal where user can find every government approved help, post etc.
- There are many policies, schemes, bills that are not used to their full potential because of lack of information.
- We have worked hard to provide a secure platform for citizens of India to find every such help provided by the government at one place.

WHY THIS PROJECT?

- As mentioned earlier, there are many policies and schemes that are not being used to their full potential, so we chose this project to give personalized experience to citizen to effectively spread information on the policies, programs, news, etc. of government.
- To establish a platform for communication between the government and the citizens of India while avoiding third party interferences
- To provide a one stop platform for the beneficiaries to get all the information about the country, Government Bodies, policies etc.

DISADVANTAGES OF EXISITING WEBSITES

- User gets all information here everything but searching this is quite not good.
- Details are not in category every new thing is putted in one section so user might not able to categorize it well.
- No personalize experience user have to search manually for schemes that is related to him/her.
- User cannot update all documents or upload it multiple times in this site. Here, user can login with email id so there are high chances of fake account to be created.
- There is only option to see policies, no link or form is provided for apply in policies.

ADVANTAGES OF OUR PORTAL

- Secure Portal (because of encryption and Aadhar card):
- Users benefit
- Middle agent fees
- All docs at a single place for user
- Provide transparency
- Platform for Interaction between government and citizen

MODULES OF THE APPLICATION

ADMIN

Admin will manage users and sub admin of this system.

USER

User will first signup and login in to system. After that they can preview dashboard system

GOVERNMENT EMPLOYEE

Government employee enrolls themselves and admin will verify government employee.

About Us
One-stop Government Portal
"One-stop Government Portal" is made for the convenience of the Indian citizen. It has been developed under the National E-Governance Plan (NEGP). The main objective of this Portal is to provide one-stop access to information and services provided by the Indian Government. It is our goal to continue to enhance and enrich this portal in terms of content covered, design n technology on regular basis.
This portal will only allow you to sign-up using your Aadhar card only, making it a secure place, which will be verified using OTP. Then, personalized schemes and subsidies would be shown to the user according to the information gathered from their Aadhar card. Along with this, they will also be able to see all other Government-issued latest news and schemes or subsidies. All the data will be stored using the Hash function/ cryptography.
For a more personalized experience, users can not only view the provided schemes, they can also apply for the same using the application forms provided. The status of those applications can be checked as well: status whether the form has been accepted or not if it is rejected, they can check the reason too. Users' details will be auto-filled using the Aadhar card and other documents provided, but they can add or change all details as well. When the government adds new policies and schemes or passes new bills, people will get notified for the same along with having the feature to give comments to express their opinions for the same.
In addition to all, the user's Adhar card has address information, from which we can give additional information like the nearest police station, Hospital, Educational institute, and all other government institutes.
Vision
E-development of India to transtion into a developed nation
Effectively spread information on government policies, programms, achievements, etc.
Enchancing India's role in Internet Governance. Provide a secure platform for people to express their views
Mission
To effectively spread information on the policies, programms, news, etc. of government.
To establish a platform for communication between the government and the citizens of India while avoiding third party interferences
To provide a one stop platform for the beneficiaries to get all the informatin about the country, Government Bodies, policies etc.

Indian vaccines among the safest in the world: Government
Date : March 16, 2021, 12:01 a.m.
Description : New Delhi: India's vaccines are one of the safest in the world, the government said on Tuesday as it tried to address vaccine hesitancy and reports of adverse events following immunisation (AEFI). The government said the number of AEFI reported was very low at 0.18% and those requiring hospitalisation were almost nil at 0.002%. "Our vaccines are absolutely safe," Niti Aayog member (health) V K Paul said. "Our data shows there is negligible side effects and almost nil serious AEFI. If you see other vaccines, 0.6% AEFIs are reported in Moderna vaccine. Ours are much lower." Read more at: https://economictimes.indiatimes.com/news/politics-and-nation/indian-vaccines-among-the-safest-in-the-world-govt/articleshow/80354274.cms?utm_source=contentofinterest&utm_medium=text&utm_campaign=cppst

CONCLUSION

- As the name suggests it will be a one-stop portal for all government-related work with a personalized experience.
- This portal gives secure and personalized experience for the citizens.
- To establish a platform for communication between the government and the citizens of India while avoiding third party interferences
- Thus, in conclusion, it is the best portal for Indian citizens willing to involve and know more about government schemes, policies, bills, and India as a whole.

THANK YOU!

Efforts by:
Khushi Patel (186140307074)
Khushi Pitroda (186140307081)
Shruvi Shah (186140307097)
